

Impress™ for EPM

RESOURCE MODULE

The Resource module automatically transfers work center, employee master and calendar data from SAP to Microsoft Project or Primavera enabling the optimal scheduling of resources.

By transferring SAP resource information to Microsoft Project or Primavera, the Resource module allows organizations to use best-in-class scheduling tools to analyze and deploy resources across a global portfolio of projects while eliminating the cost required to maintain data in both systems.

PRE-BUILT READY-TO-RUN PROCESSES

Transfers SAP work center, person (i.e. employee), rate, calendar, and capacity data to the project management system

- Enables resource level planning between projects
- Transfers complete work center hierarchies
- Maps SAP resources to roles and resources within the project management system
- Transfers SAP factory calendar

Data transfers can be regularly scheduled to ensure accuracy of resources

- Automatically updates calendar and resource data

A comprehensive set of data elements are ready for synchronization

- The fields to transfer are easily selected using a graphical user interface

SAP PM and PS

Workcenter	Workcenter Capacity	HR Workcenter
Employee	Calendars	

Primavera

Roles	Resources	Calendars
-------	-----------	-----------

MS Project

Roles	Resources	Calendars
-------	-----------	-----------

Supported Systems

- SAP EAM (PM) and EPM (PS) modules 4.6c or higher, 4.7
- my SAP ERP 2004 (ECC 5.0)
- SAP ERP 6.0 (ECC 6.0)
- Microsoft Office Project Server 2003, 2007
